SKILLS

- Blockout & Greyboxing
- Gameplay Design
- Environmental Storytelling
- Level Optimization
- Playtesting & Iteration
- 3D Modelling & Texturing
- Atlasing
- Rigging & Weight Painting
- Collision Setup

SOFTWARES

- Unreal Editor for Fortnite (UEFN)
- Unreal Engine
- Blender
- Substance Painter
- Photoshop

PROFILE

Level Designer with 3+ years of experience creating gameplay-focused experiences from blockout to final implementation. Experienced in player flow, gameplay systems, cinematics and optimization. Strong understanding of the 3D art pipeline, including modeling, texturing, rigging and asset integration, allowing me to bridge design and art requirements throughout development.

EXPERIENCE

LEVEL DESIGNER & 3D ARTIST

Phoenix Games (Puxx Studios) June 2023 - July 2026

Led end-to-end level design and technical art pipelines within UEFN. Created and integrated 100+ custom 3D models, textures, and animations for low-poly characters and props. Directed narrative cinematics and built interactive gameplay mechanics via UEFN devices, while rigorously optimizing island memory and texture budgets for multi-platform performance.

LEVEL DESIGNER

CashEsports • Internship January 2023 - May 2023

Made level and environment design for custom Fortnite experiences using Fortnite Creative 1.0. Leveraged modular assets to construct cohesive, visually compelling environments while engineering interactive game mechanics and logic loops through Fortnite Creative devices.

EDUCATION

Bachelor of Engineering - Computer Engineering
Atharva College of Engineering | 2022

Diploma - Computer Technology
SVP Polytechnic | 2019
